

Twin Valley EMT
Course Refund Policy

The course has a strict “No Refund” Policy for drops or withdrawals after December 30, 2018. It is customary practice for academic courses to have a “No Refund” Policy in order for courses to not have empty seats and be canceled at the detriment of other students and the professors. This particular course involves materials and supplies which are expensive and cannot be transferred to other students.

No student may begin the course without paying. No materials are distributed until payment has been received. The cost of this course is all inclusive and there are no separate or partial refunds. If somehow you receive course materials prior to paying for the course, your acceptance of those course materials constitutes enrollment and payment is due immediately and subject to this “No Refund” policy.

Candidates attending the 2019 SPRING HYBRID EMT course may withdraw and receive a full refund, with written notification of withdrawal up to December 30, 2018. Refunds are not granted after December 30, 2018 regardless of registration date. After this date, regardless of the candidate’s attendance or completion of the course, no refunds will be issued.

Please sign that you have read and understand the “No Refund” policy of the course and acknowledge that you are responsible for the course fee and course materials/supplies.
