Submission of Immunization Record

Welcome to Twin Valley EMT Training Center's EMT Class! As part of your EMT training, you will be asked to complete a shadowing session in an Emergency Room Department or Ambulance Company. To protect both yourself and your future patients, we will need a copy of your vaccination records.

Your vaccination recorded must be approved by and recorded into the TVEMT files and possibly the Emergency Room Department. This process can take a significant amount of time, so it is highly recommended that you begin gathering your immunization record as soon as possible.

At the start of class, you will be given a due date in which you must have this record completed and submitted to your instructors. If your immunization record is not properly submitted by this date you will have a delay in obtaining the patient contacts which may delay your completion of the course.

If you currently attend a university please check with your student health to see if they can do an immunization check and put your immunizations on a letterhead. This is the easiest for the ED and the Ambulance. If they do not then they can let you know which vaccines you may need and possibly provide at no charge or a discounted charge.

- 1) Obtain your vaccination records from your primary care physician. (This physician is typically your childhood pediatrician. Please allow adequate time to obtain these records, as some physician's offices may not email or mail medical records and/or may require you to pick them up in person or sign a release form.)
- 2) Bring your immunizations to your appointment, and make sure the SHS nurse, nurse practitioner, or physician that reviews your immunizations checks for the following items:
 - a) Hepatitis B Vaccine
 - b) Meningococcal Vaccine

- c) Measles/Mumps/Rubella (MMR)
- d) Varicella Vaccine or a varicella titer
- e) Tetanus-Diphtheria (Tdap) Vaccine
- f) Influenza Vaccine (for the given year)
- g) PPD Test (for the given year)

Upon completion of all required vaccinations, obtain a print out of your vaccination record in the University Immunization Database and either scan and email it to jennifer@tvemttraining.com bring a hard copy of it to your next class. Your immunization record is not considered approved until this document has been received by TVEMT Training. You may also want to consider keeping multiple copies of this record prior to submitting it to TVEMT Training for future employment as an EMT.

Sincerely,

Jennifer L. Hervey
